

SHELF READY PACKAGING DIE-CUT BOXES CRASH-LOCK BOXES DISPLAY UNITS FOUR CORNER GLUED BOXES STANDARD BOXES

First for full service packaging solutions

Sales and Service

CBS is proud of the dedicated team of people able to look after and advise on all your packaging requirements. These professionals are always available to answer your questions, quote and then process your orders. They also have at their disposal the latest order processing systems to provide a quick and efficient service.

CAD, Repro and Design

CBS offers a bespoke service from a creative team who will provide whatever design of box you require, in any shape or size, with outer and inner cases if you wish. They can design a box to contain a specific number of your products, taking into account the weight so that the carton is of the appropriate strength.

The repro design experts will also provide ideas for a logo, with wording, for the exterior of the box and create a display unit of your choice, such as point-of-sale material, helping you to promote your products more effectively.

Investing in technology and skills to bring your ideas to life

Corrugator

Due to the long-term vision of the directors, CBS has invested in its own state-of-the-art corrugator, enabling the company to produce corrugated board in-house. This fully integrated plant enables the company to compete at all levels in the market, besides offering the flexibility to provide fast turn round of orders.

Case Makers

CBS has invested in state-of-the-art, fully computerised case makers with quick set-up times and fast running speeds for standard corrugated boxes. The equipment also has full in-line stitching and gluing capabilities and can print multi-colours with a rotary section, when required, for hand holes and other cut-outs.

Die-cutting

Maintaining its investment in the most modern equipment throughout the production line, CBS has the latest facilities for quality printing and precise die-cutting exactly to your requirements, producing bespoke cartons in any shape or size you require.

Packaging and the environment

Paper

CBS takes great pride in offering customers the most efficient service available in the packaging industry. With a wide range of papers stocked in-house, we are able to produce board and boxes with a quick and flexible lead time, thus providing customers with their packaging quickly.

Environment

Here at CBS we place a very strong emphasis on preserving the environment. We aim to play our part in ensuring that the environment is retained as very clean and special. This is reflected in our commitment to producing single and double wall corrugated material which has no CFCs or toxins involved in any stage of its manufacture or subsequent processing.

Recycling

CBS recycles all its waste paper and board. This is a high priority which is fully in-line with the company's 'green' policy adopted throughout all its operations. We firmly believe that environmental considerations are vital for the well-being of this and future generations.
